

Safety Guidelines for SYE Summer In-person Camp during COVID-19:

What SYE is doing to ensure student & staff safety:

- Phinney Neighborhood Association (PNA) has provided us bigger space to ensure our students will be sitting 6 feet apart. Three out of the five weeks of camp we have been assigned the “community hall” in the brick building. The current room assigned (Room 2) will be able to hold 15 people with 6 foot social distancing space (our max enrollment is 12 for those weeks). PNA is working closely with us on the space requirements, should we need more space.
- Check-in & Check-out will be outside the building (Parents and guardians will not be allowed in the PNA building).
- Temperature checks will be taken in the morning. Students with temperature above 100.4 will not be admitted to the camp.
- Parents will be asked to review & respond to the online self-screen questionnaire for their child(ren) at check-in. This will also help us with contact tracing, if needed.
- Our student to teacher ratio is capped at 9:1. Since there is a lot of movement with registrations, we currently are anticipating this ratio to be around 6:1.
- Staff members will be wearing masks. We are asking that kids wear masks as well. Staff can help with this and you should talk to us directly about any individual concerns. Please send you child with a mask labeled with their name each day. Students may not need to wear it when they are doing individual projects sitting more than 6 feet apart.
- Summer camp activities have been modified to ensure individual activities and kits for each students to minimize contact.
- We will also be issuing each student their own set of pens, pencils, markers, notebooks, sidewalk chalk, etc. that will be for their exclusive use. Each student will be using the same Lego kit every day for the whole week to minimize spread of germs.
- Cleaning:
 - The tables and chairs will be disinfected at the start, before/after lunch and end of class every-day.
 - Students will be asked to wash their hands OFTEN.
 - Hand sanitizers will be available for students to use during the camp (though hand washing is still preferred).
- We will be avoiding shared toys. If for certain games the students share an object; they will be sanitized in between uses.
- We will have individually packed snacks (eg. small packs of crackers, rice crispies, fish crackers, pirate booty, string cheese, granola bars, & chips) available for students. If families prefer, they are welcome to send the child(ren) with their own snacks.

How you can help:

- Please label all of your child’s possessions clearly and do not send them with any unnecessary items.
- If you want your child to apply sunscreen (we will be outdoors for 1-1.5 hours); please send your own sunscreen clearly labeled (siblings can share among themselves).
- We will also recommend to send your child(ren) with a book for reading time.
- Students will bring their own:
 - Sack Lunch & two (optional) snacks
 - Water bottles (we have water fountains to re-fill)
 - Sunscreen
 - Book to read
